A survey on

CYBERBULLYNG

We focused on three very important aspects:

- - The importance of prevention**
- - The role of adults and young people in facing the problem**
- - The importance of punishment**

Prevention

- **More control
by the families
over people
in touch with their kids**

Prevention

- **At home parents**
- **must find a way to control the attendance of social networks by their children and realize if they perform or undergo acts of cyber bullying.**

Prevention

Prevention

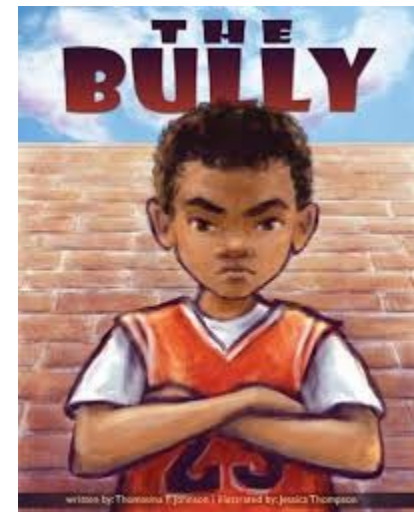

- **Teachers must have more control in times and places considered “at risk”**

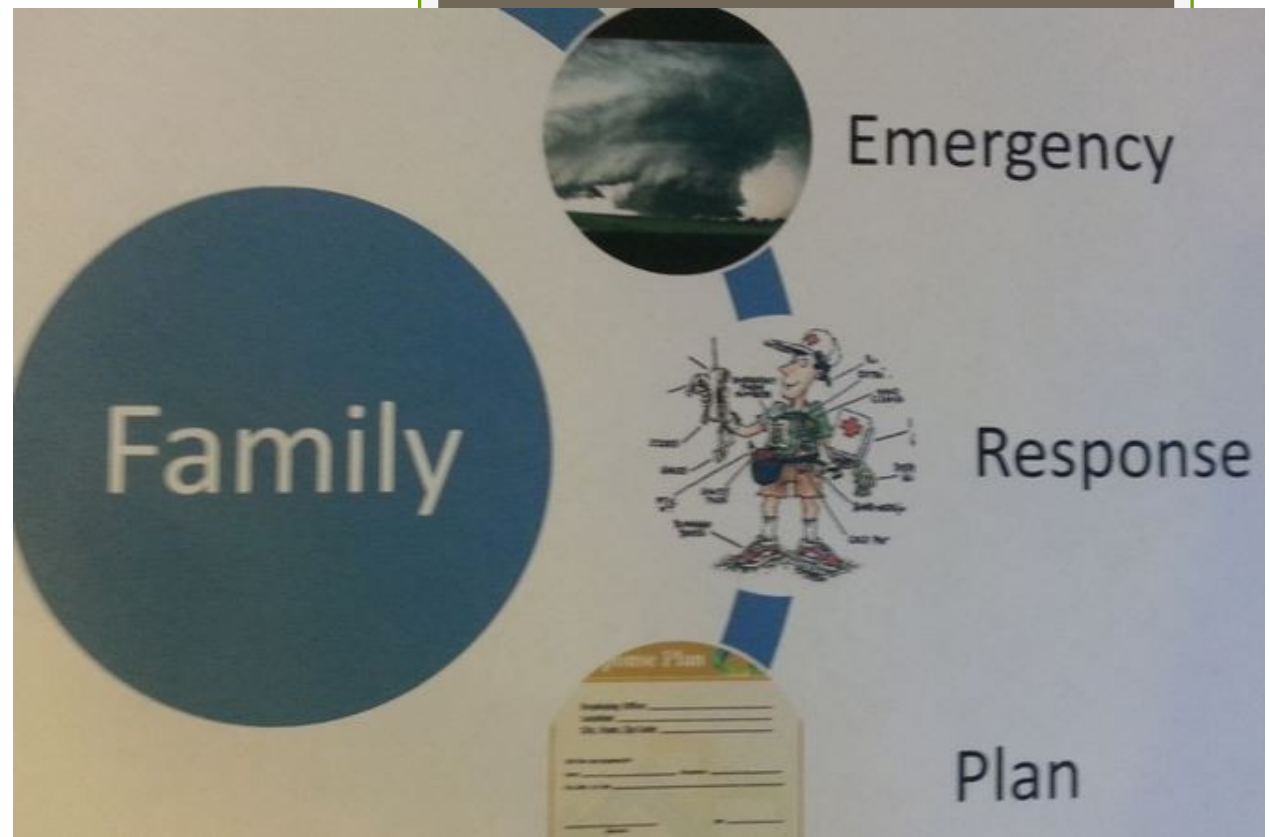

Facing
the problem

○ Don't isolate
either the victim of
bullying
or even the bully

Facing
the
problem

- **More communication between family and school**

Facing the problem

- Parents need to
- empower children
- What is often considered a harmless game can have serious consequences.

**who witnesses an
act of bullying**

**doesn't
report the
fact**

**because he/she
doesn't care**

**or because he/she is
afraid of the bully in
the same way as the
victim.**

Facing the problem

- **Talk and listen: find a place to improve the dialogue between kids and adults.**
- **Learn to listen**
- **also to those with p**

The importance of punishment

- Find punishments in which the bully pays for the damage he/she has caused, such as:

- **cleaning school environment**

- **forbidding him/her from going to school trips**
